

MODULE 1

INFORMATION & DATA LITERACY

Online safety rules

Explorer Level Activities

Online safety rules

DESCRIPTION OF THE ACTIVITY

Using the Internet and browsing on the World Wide Web may be a risky thing for our privacy and online safety. How informed are you about safety rules that can protect you in your daily online digital tasks?

Search the web for “**Online safety rules**” or “**Online safety tips**” or Similar search query (in English or your national language).

Pick at least 3 of the top results from the search engine, containing some kind of list with safety rules and tips:

- Compare the safety tips/rules and check how many of their suggested guidelines are the same
- Gather all tips in one list (only their title, not the whole information and delete duplication)
- Create a 3-column table with the following column names “I know and I follow it”, “I know but I do not follow it”, “I didn’t know it” and put every safety tip to the according column
- Study the two simplest, for you, safety rules that you are not following in your daily tasks and try to adopt them.

Some online resources for additional study:

- <https://www.betterinternetforkids.eu/> (a lot of resources in all languages)
- European Safer Internet Day <https://www.saferinternetday.org>
